EDUCATION

New York University, Tandon School of Engineering | New York, NY

May 2027

Bachelor of Science, Computer Science

Minor in Cybersecurity | Minor in Mathematics

GPA: 3.42

Relevant Coursework: Computer Architecture and Organization, Design and Analysis of Algorithms, Object Oriented Programming, Data Structures and Algorithms, Discrete Mathematics, Data Analysis, Introduction to Machine Learning, Computer Networking

SKILLS

- **Programming Languages:** Python, C++, JavaScript, TypeScript, SQL, CSS, HTML
- **Software:** AutoCAD, Arduino IDE, Bambu Studio, Revit, Microsoft Office, Tinkercad, Linux, Google Workspace, XCode, Visual Studio Code, Visual Studio, FileZilla, sci-kit learn, Pandas, NumPy, Power BI, Power Apps, Power Automate, React
- **Hardware:** Soldering, Arduino Uno, UltiMaker, Epilog Fusion, Raspberry Pi
- **Languages:** Fluent in English, Proficient in Spanish

EXPERIENCE

Exelon | Philadelphia, PA

Jun. 2026 - Aug. 2026

Operational Technology Security Governance Program Intern

- Developed a **Microsoft Copilot agent** using an inventory of Operational Technology (OT) governance documents, enabling natural language search across organizational knowledge resources.
- Designed **AI security risk assessments and threat modeling exercises** focused on responsible AI, cybersecurity risks, governance controls, and human oversight within OT environments.
- Built **automated reporting and data analysis solutions in Excel and Power BI** to monitor stakeholder engagement, operational metrics, and governance program performance across multiple business units.
- Led research on **Distributed Energy Resources (DERs), Virtual Power Plants (VPPs), and DERMS** technologies, culminating in the design and executive presentation of a Neighborhood Resilience Hub concept to the **SVP and COO**.

Latzo Software Solutions | Seminole, FL

Dec. 2025 - Aug. 2026

Software Engineer

- Developed a **HIPAA-compliant AI voice receptionist**, automating meeting scheduling, prescription refills, and patient query responses.
- Engineered privacy-focused workflows that reduced routine front-office workload and allowed staff to prioritize in-person patient care.

Pasadena Center for Asthma and Lung Disorders | St. Petersburg, FL

May 2023 - Aug. 2025

Software & IT Intern

- Designed and launched an **ADA-compliant** patient website (**HTML, CSS, JavaScript**), improving patient accessibility and reducing call inquiries by 25%.
- Digitized patient forms, maintained secure electronic medical record (**EMR**) workflows, and provided **IT support** to 25-50 patients daily while supporting HIPAA compliance and data integrity.

New York University | New York, NY

Jun. 2022 - Jul. 2022

Machine Learning Student Researcher

- Applied **Python, NumPy**, and **scikit-learn** to develop, train, and test supervised and unsupervised **ML models** on real datasets.
- Led small-team research projects to optimize **predictive models**, improving accuracy metrics through **feature engineering** and **parameter tuning**.
- Strengthened foundations in **AI theory**, algorithmic efficiency, and real-world **ML applications**.

PROJECTS

Software Engineer, Phishing Website Detection | Python, Scikit-learn, Pandas, NumPy

Mar. 2026 - May 2026

- Built an end-to-end **binary classification pipeline** to classify 10,000 websites using 50 URL and webpage features.
- Trained and evaluated **Logistic Regression, KNN, and SVM models** with feature selection, scaling, and leakage-safe validation, achieving a **98.5% test accuracy**.

Software Engineer, E20 CPU and Cache Simulator | Python

Oct. 2025 - Nov. 2025

- Engineered a **cycle-accurate simulator** for the **E20 instruction set architecture**, replicating core CPU functionalities including **instruction decoding, pipelined execution, and memory I/O handling**.
- Extended the simulator with a **fully configurable cache subsystem**, supporting **direct-mapped, set-associative, and fully associative** caches with parameterized size, block size, and associativity.

LEADERSHIP & CERTIFICATIONS

Vice President, NYU Artists Anonymous

Sep. 2023 - Present

Global Career Accelerator - Querying Data Certification

Mar. 2026

Global Career Accelerator - Python and Data Certification

May 2026
